Deloitte Internship Programme 2024/2025 For Actuarial and Analytics Solutions

Description

Deloitte invites suitably qualified and unemployed graduates to apply for its Actuarial and Analytics Solutions (A&AS) Internship Programme. This program provides an opportunity to develop a highly sought-after skill set within a globally recognized brand, leveraging excellence in actuarial science and analytics.

The Deloitte A&AS team is a multi-disciplinary group comprising actuaries, mathematicians, data scientists, engineers, economists, statisticians, and other specialists. This diverse team delivers unique insights and expertise to clients across various industries. By employing advanced analytical modeling techniques, including machine learning and artificial intelligence, as well as robotic process automation, the team creates innovative solutions tailored to clients' specific needs. The A&AS team fosters a collaborative and engaging environment, seeking driven individuals who aspire to excel in their fields.

Responsibilities

Interns will engage in a comprehensive training program, working closely with team members within the A&AS division. Key responsibilities include:

- Participating in strategy development and data lifecycle management.
- Assisting in credit risk modeling and conducting full business case studies.
- Utilizing tools such as Excel, Python, SQL, VBA, and Power BI for data analysis and visualization.
- Engaging in self-development through e-learning modules.
- Collaborating with team members to generate innovative solutions and ideas.

Qualifications

Candidates from a diverse range of academic backgrounds are encouraged to apply, particularly those with strong academic results in the following fields:

- Other STEM-related degrees (a strong mathematical ability is essential)
- Engineering
- Actuarial Science
- Accounting
- Computer Science (with a strong mathematical foundation)
- Data Science
- Mathematics
- Statistics
- Economics

Skills and Competencies:

Successful candidates should demonstrate the following skills and attributes:

- Self-motivated and analytical mindset.
- Passion for data and flexible problem-solving skills.
