Description

The Dis-Chem Dispensary Support Learnership Programme for 2024/2025 offers an opportunity for learners to gain foundational knowledge and practical skills in the pharmaceutical sector. This programme aims to develop learners capable of completing the basic pharmacist assistant course, emphasizing comprehensive understanding and quality on-the-job training.

As a Dispensary Support Learner, you will be integrated into the Dis-Chem team to acquire hands-on experience and knowledge about the pharmaceutical environment and dispensing processes.

Responsibilities

- Facilitate the sale of Schedule 1 medicines and scheduled substances.
- Assist with call centre operations and patient service inquiries.
- Provide health promotion information to individuals.
- Support the authorization process for chronic, HIV, AIDS, and oncology medication schemes.
- Report stock discrepancies and shortages to the dispensary manager.
- Manage receipt and storage of dispensary stock as per company SOPs.
- Assist in stock merchandising and maintenance of dispensary and OTC areas.
- Perform accurate picking, packing, labeling, and medication checks, ensuring pharmacist verification.
- Follow up on patient scripts and appointments as requested by the dispensary manager.

Qualifications

- Completion of Grade 12 with Mathematics (HG) and either Physical Science or Life Science.
- Minimum average achievement of 50%.

Skills and Competencies:

- Proficiency in English and a second language; strong communication and customer service skills.
- Effective time management, attention to detail, and ability to work under pressure.
- Problem-solving capabilities, teamwork, and conflict management skills.
- Competence in computer and numerical skills; professional conduct and trustworthiness.

Job Benefits

Participants will gain valuable experience in the pharmaceutical field, enhancing employability and fostering professional development. The structured learning environment supports skill acquisition and knowledge advancement.

How To Apply?

Interested candidates should submit their applications, including all relevant documentation, to Dis-Chem Pharmacies. This learnership is a valuable opportunity for those seeking to advance their careers in the pharmaceutical industry.
